A Wonderful Record.

As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down distress in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so discharges and weakens, and overcomes every form of weakness incident to the organs distinctly feminine.

"Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and vitality, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.

Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities. The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent free on receipt of the postal note of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address as above.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. This little white scaly, the scurf, throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

[Entered at the Postoffice at Alexandria, Virginia, as second-class matter.]

Hard Work for Public Printer. The last session of Congress was a strenuous one. There were 28,236 bills and resolutions printed at the government printing office during the session, compared with 27,903 during the three sessions of the fifty-eighth Congress. The comparison on enrolled bills, laws, reports of Senate and House, and of the daily Congressional Record, also shows that the session just closed produced more printed matter than the whole of the last Congress. This information was brought out at a hearing Saturday before the Senate committee on printing for the purpose of determining where the blame, if any, should lie for the delay in the final enrollment of the public buildings, bills which detained Congress in session until 10 o'clock at night on the closing day of the session.

Enrolling Clerk Horn, of the Senate, said he had no specific information on the bill, it being a House measure, but he said that errors and mistakes had been more frequent in matter coming from the printing office this year than ever before. Captain Brian, of the printing office, gave a detailed statement as to the exact time at which the copy of this bill was received and returned to the Capitol printed. The evidence seemed to prove that the delay was in the House enrolling-room, but that it was entirely due to the physical impossibility of preparing the bill for final printing in the time desired. Several errors, some of which originated in the printing office and others in the House enrolling-room, caused nine pages of the bill to be sent back to the printing office between 6 and 8 o'clock on the evening of June 30. It was the correction of these that kept Congress in session late that night.

The printing office proved by its reports that exceptionally good time was made at that end of the line. There was no representative of the House enrolling-room present at the inquiry Saturday.

Fire on an Oil Steamer.

The British oil steamer Indrani, Captain Williams, from New York to Shanghai with 300 drums of naphtha and 35,000 cases of oil on board, caught on fire yesterday afternoon just east of Singapore, India. Many drums were thrown overboard and the fire eventually was put out. The Indrani continued her voyage. The fire began by the bursting of one of the naphtha drums. Flaming naphtha flowed across the deck, and the other drums caught fire almost immediately. A pillar of flame and smoke was seen rising from the ship. The Chinese crew refusing to assist in the work of throwing the burning drums overboard, clamored into lighters. The captain and officers of the Indrani threw the flaming drums into the sea and managed to save the ship, whose iron deck alone prevented its destruction. Floating drums of naphtha, blazing furiously, drifted with the tide into Singapore harbor and crossed the man-of-war anchorage. Shipping and wharves were endangered, when a set of the tide carried the drums to the southward, where they gradually burned out. In the meanwhile the fire on board the Indrani had been extinguished and she continued on her way. This is the second fire which has occurred on board the Indrani since she left New York April 10 for Chinese ports. A dispatch dated June 7 said that the Indrani had been saved from destruction by fire by the throwing overboard of 250 drums of naphtha.

An Attempt to Blow up a Hotel.

Mystery surrounds an attempt made Saturday morning at 1 o'clock to blow up the Commercial Hotel, the leading public inn of Lincoln, Ill. A dynamite bomb was thrown against the structure, but luckily it did not explode until it had fallen to the ground, where its force was partly broken by a low shed built over a car entrance. All the windows for two blocks up and down the main street were shattered, and in many houses pictures were blown from the walls and furniture upset. A big breach was made in the front wall of the hotel and the first floor was wrecked. There were 50 patrons in the hotel, and they rushed into the street in their nightclothes. The report was so terrific that it awoke practically the entire city, and all the streets were filled with persons in scanty attire for half an hour after the explosion. Fragments of the bomb were discovered, and the police say it was of clumsy construction. Chief of Police Retz says that the dynamite was packed in a short piece of drainage pipe, which was closed at the ends, and fitted with percussion caps. The bomb was thrown from a point about 50 feet from the hotel door. A

Street Preachers in Washington.

Street preachers will no longer be allowed to hold forth at will on the streets of Washington after the issuing of an order by the Commissioners today.

The order will require that all persons desiring to deliver sermons, orations, or addresses in the streets must have a permit signed by Maj. Sylvester, chief of police. A violation of this regulation will cost the offender \$10. The order will be known as an amendment to section 4 of article 3 of the police regulations, and was drafted by Corporation Counsel Thomas. Members of the Salvation Army and of the various missions of the city express themselves as favorable to the promulgation of this order. They declare that it will not only protect them from the exponents of unworthy causes, but to a great degree remove the stigma placed upon the street preacher by the public on account of the actions of lay preachers who conduct a system of mendicancy.

These latter persons, it is said, take up collections at frequent intervals, and it is said that the money goes into the pocket of the preacher and not to the religious or charitable institution of which he professes to be a representative. It is expected that a general exodus of wandering street preachers will follow the issue of the proposed order.

Oyster Laws Violated.

While making his official rounds and cruising the Potomac on the Virginia police steamer Accomac the chairman of the Board of Fisheries came upon four Maryland boats scraping (or dredging) oysters just above Nomini creek, Westmoreland county last week. It was about sunrise Monday morning, and from the load they had on they must have been working all night, and possibly some of the day Sunday. After a number of rifle shots the boats hove to, and were taken to Bushwood, Md., and turned over to the Maryland authorities. The law between the two States requires that Marylanders caught dredging in the Potomac shall be taken to that State for trial, and Virginians to Virginia. [Virginia Citizen.]
